

*Created by turf producers...for turf producers™*

Now there is a better way to protect newly harvested sod and promote your business at the same time. *Sod Shield* is a unique cover that fits snugly over a pallet of rolled or cut sod. *Sod Shield* covers and protects newly harvested turfgrass from wind, sun and rain; and secures loose pieces of sod during transportation. Your company name, logo and other information can be printed on *Sod Shield*, so that your message is displayed the whole time your load is in transit.

## PRESERVE.

Maintain turf freshness  
Retain moisture content

## PROTECT.

Shield from heat, wind and rain  
Secure loose pieces of sod

## PROMOTE.

Advertise your message on the truck,  
at point of sale and at the job site  
Superior printing technology

# Sod Shield Specifications

- ▲ Five sided cube-cover that fits over a single pallet of rolled or cut sod
- ▲ Fits the pallet of sod snug enough to not blow off in transit, but not so tight to create difficulty during application
- ▲ 1/4" butterfly vents on top for easy application
- ▲ Standard dimensions are 49" x 49" x 40" drop. Manufactured size can be adjusted to accommodate different pallet sizes
- ▲ Outside color is opaque white for printing and to reflect heat. Inside color is opaque black to block light & heat and to keep sod cool
- ▲ Constructed from co-extruded black and white poly
- ▲ Sod Shield is of a lightweight nature for ease of use and economy
- ▲ Sod Shield is 100% recyclable

## PRESERVE

- ▲ Sod Shield preserves perishable, newly harvested sod from harmful wind/sun/rain, resulting in fresher delivered product for the end user
- ▲ Being 100% recyclable, Sod Shield preserves our environment

## PROTECT

- ▲ Sod Shield protects your loads from becoming overweight by shielding them from rain in the field or on the truck
- ▲ Sod Shield makes traditional tarping obsolete, as it is safer, more convenient and more affordable
- ▲ Sod Shield complies with the **Cargo Securement System for Transporting Sod**, enacted by the U.S. Federal Motor Carrier Safety Administration

## PROMOTE

- ▲ Print on all 4 sides and, by special order, on top
- ▲ Market your turf brands
- ▲ Promote your farm
- ▲ Provide "how to" installation and turf care information
- ▲ Advertise installation or other services / Co-market with other lawn and garden products & services

Sod Shield is equipped with SureFit Technology™ which allows for a flexible, snug fit.

The next generation of turf farmers will have to do better than their predecessors to be successful in this industry. **Sod Shield** protects newly harvested sod from wind, sun and rain while promoting the business. **Sod Shield** will give turf producers their competitive edge, and that's what it's all about.
